

Snap-Link Mobile for iPhone

Snap-Link Mobile for iPhone puts control of your home on your Apple iPhone™ or iPod Touch™. The app is a one-time download with no monthly fees or contracts from Leviton.

FEATURES

- Set lighting levels or audio from 0-100% with a sliding scale – or use quick scene buttons.
- View real time video of surveillance cameras. See your front door, nursery, pool, boat dock, etc.*
- Conserve energy by adjusting heating and cooling and view humidity and outdoor temperatures.
- Arm or disarm the alarm, view a security log to monitor activity of housekeepers, nannies, etc.
- Control your whole home audio system. Select music sources and adjust volume levels in individual rooms or the entire house.
- Access multiple accounts accounts on a single app.
- Control from iPhone, iPad, or iPod Touch.
- Use the app as a remote control for all of your AV equipment.
- Organize and control devices by room.

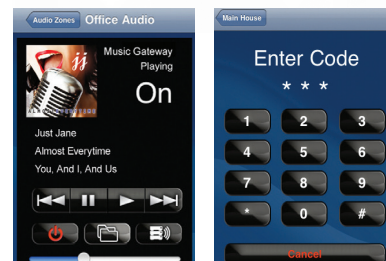

**Requires appropriate cellular provider plan and cameras.*

**May require adjusting router settings to enable port forwarding.*

Simply purchase Snap-Link Mobile for iPhone from the Apple App Store and get in control of your home or business. With this App, you will command your property via secure encrypted communication over Wi-Fi or cellular data networks.

Snap-Link Mobile for iPhone is available in iPhone supported regions for multi-lingual support. Users receive free automatic software updates. No third parties other than cellular service are required for operation. There is no set-up for Snap-Link Mobile for iPhone other than the initial purchase from the Apple App Store.

Snap-Link Mobile for iPhone requires a Leviton Omni LTe, Omni IIE, OmniPro II, Lumina, or Lumina Pro automation system to be installed in the home. No cell service plan is required thanks to Wi-Fi connectivity. ■
